Institutional Policy on Accessible Built Facilities & Barrier-Free Campus Infrastructure

> **CORE INSTITUTIONAL COMMITMENT:** *Amity University Mumbai is committed to universal design across all academic blocks, hostels, research complexes, and communal facilities. All enrolled students, faculty, staff, and campus visitors with benchmark disabilities (Divyangjan) are guaranteed equitable, barrier-free physical access without auxiliary surcharges.*

1. Executive Overview & Institutional Obligation

Amity University Mumbai (AUM) officially maintains and provides dedicated accessible physical infrastructure and supportive facilities for persons with disabilities. In full compliance with Section 16, Section 40, and Section 44 of the Rights of Persons with Disabilities (RPwD) Act 2016, University Grants Commission (UGC) Guidelines, and National Building Code (NBC) norms, the university operates a comprehensive barrier-free built ecosystem across its sprawling Mumbai-Pune Expressway campus.

2. Campus Built Infrastructure & Mobility Provisions

2.1 Exterior Pathways & Building Access

- **Graded Entry Ramps**: All primary academic blocks, administrative hubs, library buildings, and auditorium entrances are equipped with wide, low-gradient ramps (1:12 slope) with non-skid textured paving and continuous dual-height handrails on both sides.
- **Dedicated Disability Parking**: Clearly demarked, extra-wide accessible parking bays are reserved directly adjacent to main entrance vestibules with direct curb cuts for zero-step transfer from vehicles to walkways.
- **Tactile Walkways & Guiding Paving**: Outdoor pathways feature continuous visual guidance, leveled paver joints, and demarcated pathways ensuring ease of navigation for visually impaired and wheelchair-bound individuals.

2.2 Multi-Floor Vertical Circulation

- **Passenger Elevators with Assistive Technology**: All multi-story academic buildings and student residence towers are serviced by high-capacity passenger elevators equipped with auditory floor announcements, low-height Braille tactile control buttons, emergency call sirens, and extended door-holding sensors.
- **Staircase Safety Modifications**: Internal stairs feature high-contrast luminous step-edge demarcations and continuous rounded railings on both flanks for ambulation support.

2.3 Barrier-Free Sanitary Restrooms (Divyangjan Toilets)

- **Dedicated Wheelchair-Accessible Restrooms**: Located on each active academic floor and central utility clusters. Sized to allow full 1500 mm turning radius for motorized and standard wheelchairs.
- **Fixtures & Assistive Ergonomics**: Outfitted with outward-swinging doors with lever latches, heavy-duty wall-mounted grab rails alongside western commodes, lowered washbasins with touchless sensor faucets, anti-slip flooring, and low-level emergency distress pull-cords.

3. Specialized Internal Facilities & Academic Accommodations

3.1 Central Library & Digital Repositories

- **Physical Accessibility**: Wide-aisle layout allowing comfortable wheelchair passage between book stacks, with low-height issue/return counters and priority study carrels.
- **Digital Assistive Terminals**: Dedicated computing nodes equipped with screen-reading software, electronic text-to-speech converters, and adjustable monitor arms for low-vision scholars.
- **Staff Retrieval Assistance**: Designated library assistants are assigned on-call to retrieve high-shelf volumes and physical journals for disabled students.

3.2 Academic Classrooms & Laboratories

- **Accessible Seating Demarcations**: Digital lecture theatres and classrooms provide reserved front-row or ground-level seating areas with removable desks for wheelchair integration.
- **Laboratory Workstations**: Lowered laboratory workbenches in computer, behavioral sciences, and engineering laboratories with unobstructed wheelchair clearance.

4. Internal Transit, Hostels & Medical Support

4.1 Campus Mobility & Transit

- **On-Campus Wheelchairs**: Standard manual wheelchairs and transfer chairs are stationed at primary gate security checkpoints, reception desks, and student hostels for temporary or emergency checkout.
- **Battery-Operated Internal Shuttles**: Electric carts are available across internal campus avenues to transport mobility-challenged students, elderly visitors, and injured individuals between gate zones, hostels, and academic halls.

4.2 Residential Hostels (Student & Staff Housing)

- **Priority Ground-Floor Room Allocations**: Disabled students and residential faculty receive prioritized ground-floor room allotments in apartment-style residential complexes to ensure zero vertical stair barrier.
- **Adapted Suite Features**: Rooms include widened door openings, step-free access to adjoining balconies, tailored en-suite western sanitary facilities with grab bars, and emergency alarm links.

4.3 Medical Infrastructure & Emergency Protocol

- **Campus Clinic & 24/7 Ambulance**: Fully operational healthcare clinic staffed with medical personnel; 24/7 on-campus ambulance equipped for rapid medical transit.
- **Emergency Funds**: Institutional contingency provisions (reviewed June 2024) ensure swift financial disbursement approved by the Hon. Vice Chancellor for emergency medical supplies or accessibility aids required on campus.

5. Facility Provision & Technical Compliance Matrix

Infrastructure Category	Specific Facility Provided	Location / Scope	Target Beneficiaries
Horizontal Access	Anti-skid entry ramps (1:12 gradient), wide curbs	All Academic Blocks, Library, Mess	Wheelchair users, crutch users
Vertical Transit	Braille & voice-prompted elevators; tactile cues	Academic Blocks, Admin, Hostels	Mobility & visually impaired
Sanitary Facilities	Specialized Divyangjan washrooms with grab rails	Every floor in academic & central zones	Orthopedically impaired users
Campus Transit	Battery-operated buggies, gate-to-block transfer	Across internal campus network	Mobility challenged, pregnant, injured
Residential Living	Ground-floor accessible hostel rooms & adapted baths	Student & Faculty Residence Towers	Disabled resident students & staff
Library & Digital	Lowered counters, screen readers, staff retrieval	Central University Library	Low vision, visually impaired students
Emergency Care	On-campus clinic, emergency pull cords, 24/7 ambulance	Health Centre & Security Control	Entire university community

6. Facility Requisition & Accessibility Grievance Redressal

To request customized infrastructural modifications, report broken accessibility equipment, or requisition dedicated campus mobility support, students and staff may utilize the following single-window channels:

- **Campus Administrative Office**: Direct contact via Estate Management & Facilities Team for ramp repairs, wheelchair checkout, or elevator maintenance.
- **Disability Support Office & DSW**: Handles specialized classroom relocations (e.g., shifting lectures to ground-floor halls) and hostel adjustments (Helpline / Dean Student Welfare).
- **AUM Counseling Centre ('Way For Well-Being')**: Coordinated under Amity Institute of Behavioral & Allied Sciences (AIBAS) for cognitive, sensory, and psychological wellness accommodations.
