Indicator 3.3.4

Does your university as a body provide students access to sexual and reproductive health-care services including information and education services?

Evidence overview

AUM provides general campus medical support through its clinic and ambulance. In addition, a documented seminar in May 2025 provided students with menstrual health and hygiene information.

Campus healthcare access

The university has a round-the-clock campus clinic and ambulance. These provide general medical support and emergency transport.

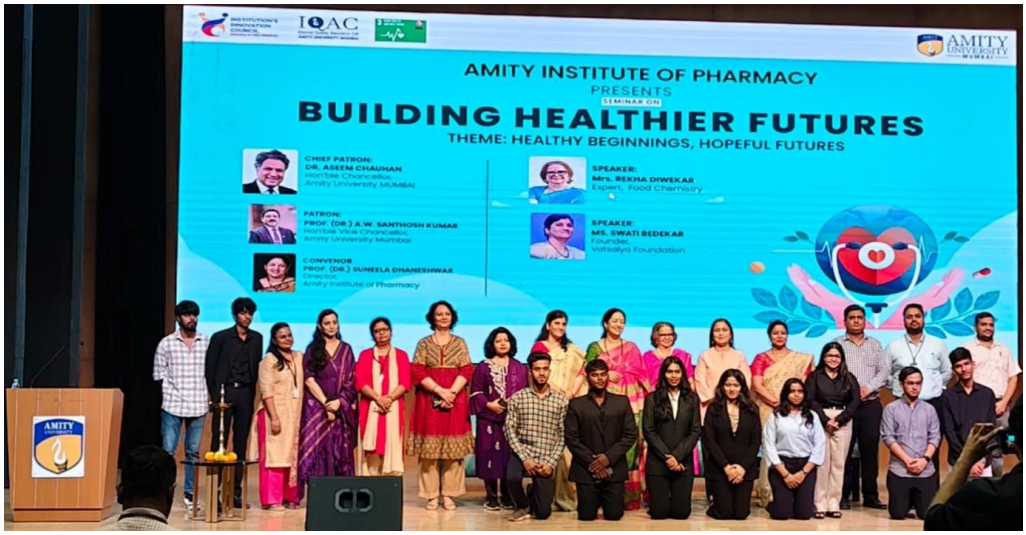

Menstrual health information and education

Amity Institute of Pharmacy organized Building Healthier Futures on 7 May 2025 at the A1 Block auditorium, with approximately 250 participants across students, faculty, non-teaching staff and university leadership. Ms. Swati S. Bedekar, Trustee of Vatsalya Foundation and founder of the Sakhi Project, addressed menstrual dignity, hygiene and affordable biodegradable sanitary products. A product kiosk supported the session. The activity provided an identifiable educational contribution relevant to menstrual health.
